

**DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
(ARTIFICIAL INTELLIGENCE & MACHINE LEARNING)**

Academic Year: 2028-29

Semester: II

Class / Div / Branch: T.E/B/IT

Subject: COA

Name of Instructor: Prof. Tejashri Kolhe

Name of Student: Moksh Bhandari

Student ID: 24106061

Roll No: 18

Date of Performance: 15/04/2026

Date of Submission: 23/04/2026

Experiment No. 9

Aim:

Lab Outcomes:

100% honest review: yes, it is possible to make this into a business ? but not in the naive way most first-time builders think.

Output:

Parshvanath Charitable Trust's
A. P. SHAH INSTITUTE OF TECHNOLOGY
(Approved by AICTE New Delhi & Govt. of Maharashtra, Affiliated to University of Mumbai)
(Religious Jain Minority)

PERSONA/USER PROFILES

Quick Guide: The description of a typical person who is a potential user/customer of a solution helps to maintain a consistent understanding of a target audience. The persona is named and described as precisely as possible.

Lewrick / Link / Leifer
The Design Thinking Toolbox
978-1-119-62919-1

Name of persona **Virat Kohli**

Determine name, gender and age.
Add more attributes.

Description of the persona

Describe the fictitious character:

A 35-year-old world-class athlete and global cricket icon. Known for extreme discipline, intense competitiveness, and a precise, data-driven approach to fitness. He balances a grueling global professional schedule with high-end brand management and family life. (The Elite Athlete / The Perfectionist).

Motivation

What are the motivators

- Peak Performance: Maintaining an elite level under pressure.
- Personal Growth: Constant self-improvement and learning.
- Setting Examples: Inspiring future generations through excellence.

Trends

What are the driving forces and trends (in future)?

- Digital Engagement: Leveraging social platforms for brand building.
- Health & Wellness: Precision dieting, advanced training methods.
- Diversification: Expanding business interests beyond active sport.

Moodboard/sketch

Do a moodboard or draw a sketch that visualizes the user/follower

Jobs to be done

Which tasks are supported by the product?

- Secure top tournament victories.
- Manage time effectively between training, matches, and brand commitments.
- Maintain a highly polished public image.

Problems/pans

What are the difficulties, problems, frustrations, pains?

- Schedule overload and potential for burnout.
- Intense public pressure and media scrutiny.
- Balancing commercial interests with primary athletic duties.

Goals

What makes the user happy?

- Creating a lasting sporting legacy.
- Ensuring long-term physical and mental well-being.
- Building a sustainable business empire post-retirement.

Use cases/application scenario

Describe all use cases in the context of the problem

User Scenario: Preparing for a decisive match. He needs to quickly analyze opponent bowlers' weaknesses, monitor his own recovery progress via a wearable, and plan his training schedule to minimize travel fatigue. He uses a dedicated app to aggregate this data.

Conclusion:

I'll be blunt: the product itself is useful; the first monetization idea needs refinement.
